Additional Documentation (if requested) - Data Integrity Audit

This data integrity audit is designed to verify the overall integrity of a data file. Accordingly, the documentation provided must be independent in nature and sufficient to verify the validity and accuracy of the entire data file.

Even if you provided a letter/affidavit attesting to the truth and accuracy of your data when initially submitting your file electronically, we will **require** specific documentary evidence (trade confirmations, monthly statement, or equivalent) to independently verify the details of the transactions and/or holdings requested, if your file is selected for a data integrity audit.

*** Failure to comply with this audit request will result in the rejection of ALL claims on your electronic submission ***

- Negative values may only be given for short beginning or ending/unsold holdings (transaction type “B” and “U”). All other transactions must reflect positive values.

If you have this information, you must combine or amend your accounts as follows:

- Shares Received into Account – Provide the beginning holdings and/or original purchase of these shares from the prior account rather than the “free receive” transaction.
- Shares Delivered out of Account – Provide the sale(s) and/or ending holdings from the subsequent account rather than the “free deliver” transaction.

If you have no information available on the original purchase/subsequent sale, you must provide the free receive/deliver transactions in their respective claim(s) for **balancing purposes only**. A free receive or transfer in must be reflected as a transaction type “R” and a free deliver or transfer out must be reflected as a transaction type “D” (prices and net amounts must be zero). **THESE TRANSACTIONS WILL NOT BE CONSIDERED ELIGIBLE AND WILL BE EXCLUDED FROM THE CALCULATION OF YOUR CLAIM.**
